PROFESSIONAL PROFILE

Senior AV and Cinema Projection Engineer with 14+ years of strategic technical leadership and operational excellence in mission-critical digital cinema environments. Proven expertise managing 80+ multiplex screens with 99%+ uptime at PVR INOX Limited. Specialized in end-to-end cinema technology integration: DCI projection systems, Laser Light Upgrades (LLU), cinema servers, multichannel audio engineering, and networked AV infrastructure. Certified across 12 industry-leading OEM platforms. Track record of reducing operational downtime, mentoring technical teams, and delivering complex multi-site deployments on schedule.

PROFESSIONAL EXPERIENCE

Manager – Sound & Projection

PVR INOX Limited • India's Largest Multiplex Cinema Chain

December 2024 – Present

- Oversee projection and sound operations across 80+ multiplex screens nationwide with consistent 99%+ operational uptime.
- Design, implement, and enforce preventive maintenance (PM) schedules reducing equipment failures and unplanned downtime by 35%.
- Lead and mentor team of projectionists and technical staff across distributed sites; establish technical excellence standards.
- Manage site-level DCI compliance audits, laser safety protocols, and sound processor B-chain calibration across all properties.
- Coordinate directly with OEM partners (Barco, Christie, Dolby, Lightware) for warranty claims, parts logistics, and technical escalations.
- Oversee Laser Light Upgrade (LLU) retrofits and system migrations while maintaining operational continuity.

Team Coordinator

Qube Cinema Technologies Pvt. Ltd. • Digital Cinema Technology Pioneer

July 2011 – November 2024

- Delivered 13+ years of end-to-end digital cinema installation, commissioning, and maintenance across India's multiplex ecosystem.
- Led multi-platform projection system deployments: Barco (Series 2 & 4), Christie DCI systems, and NEC laser cinema projectors.
- Administered cinema server operations (Dolby IMS3000, Qube XP, GDC) including content ingestion, KDM timelines, and show automation.
- Executed multi-site field deployments with technical coordination, acoustic alignment, and rapid emergency troubleshooting.
- Trained and mentored junior engineers in safety procedures, optical alignment techniques, and server diagnostics protocols.
- Managed preventive maintenance routines and vendor relationships to ensure 98%+ system availability across client sites.

OEM CERTIFICATIONS & INDUSTRY TRAINING

• Dante Level 1 Certified (3rd Edition) – Audinate (2026)	• Christie RealLaser & CineLife Safety – Christie Digital (2025)

• Christie RealLaser Light Source – Christie Digital (2025)	• Christie Maintenance Series I & II – Christie Digital (2025)
• Christie Projector & Lamp Safety – Christie Digital (2025)	• Barco Series 4 Diagnostics & Service Level 2 – Barco (2025)
• Barco Series 4 Projector Level 1 Certified – Barco (2022)	• Barco Series 2 LLU Retrofit Certified – Barco (2023)
• Lightware AV-over-IP Basics Level 1 – Lightware (2026)	• Q-SYS Cinema Core 101 Training – QSC (2026)
• NEC Cinema Laser NC1202/NC1402 Training – NEC (2024)	• Diploma in Computer Hardware & Networking – IHT, Moradabad (2010)

CORE TECHNICAL COMPETENCIES

Projection & Laser: Barco Series 2 & 4 • Christie RealLaser & CineLife • NEC Laser Projection • Laser Light Upgrades (LLU) • DCI-P3 Color Calibration • 14fL Target Luminance • Optical Alignment & Maintenance	**Cinema Servers & IMB:** Dolby IMS3000 • Qube XP • GDC Media Servers • Integrated Media Blocks • DCP Ingestion • KDM Management • RAID Array Configuration • Show Automation
Cinema Audio & Acoustics: Dolby Multichannel Cinema Sound • Dante Audio over IP (Level 1 Certified) • Q-SYS Cinema 101 (Certified) • AES/EBU Digital Audio • B-Chain Tuning & RTA Analysis • Surround Speaker Calibration	**AV Infrastructure & Operations:** Lightware AV-over-IP (Level 1 Certified) • IP Multicast & IGMP Protocols • PTP Clock Synchronization • Multi-Site Fleet Operations • Preventive Maintenance SOPs • Vendor RMA & Logistics
